All-

We have a subcontractor (Cooper Zietz Engineers [CZE]) that will be performing the field oversight on behalf of EPA. We have a pool of people from CZE that will be providing the oversight. This week it will be:

Paul DesFosses
pauld@coopercm.com
(208) 390-1049

Paul plans to be at FMC Monday morning for the FMC H&S training.

Kelly-

I have asked Paul to send you an email at the end of each day to apprise you what time you plan to be onsite the following day. Please feel free to communicate with him directly should you have any questions for him.

Please let me know if you have any questions.

Tx,

Ed Greutert, P.E.

Subject: [External] Update and Deliverable Schedule

FMC will be starting work on the Groundwater Study next week. I will be sending out contact info for out oversight person shortly in case anyone wants to arrange to be there. Bernie Zavala, EPA's Hydro will be out Tuesday afternoon as well to watch the wells go in.

Review Schedule:

The due date for the RD review has been extended to April 18. I would like all comments by this time. However, if that is not possible, I need to receive comments on the plans related to grading and storm water so that we can stay on track for remedy implementation this summer.

We received the FMC responses to the Data Gaps Report last week. Comments on this report are also due Friday 4/25.

Kevin
